**Redify Global Solutions Pvt.Ltd., is a company incorporated with a view to conduct Futuristic research & development in the field of Science**

”

## **Mission and Vision:**

**“Research and edification for addressing current and future healthcare challenges”**

**We strive to advance scientific knowledge and innovations for improving human health and wellness. Through productive collaborations, discussions, deliberations in India and abroad, we aim to address improve existing technologies for addressing healthcare challenges of mankind. Another paramount focus will be to promote the discoveries from bench to bedside to maximize the translational potential of the biomedical discoveries of our team. With bedrock science and capacity building, we aim to further train and ignite scientific curiosity in young minds to get better equipped for tomorrow. This helps to get networking ideas, innovations and discoveries among scientists, Researchers, Policy makers, Industrialists, Corporates, academicians across private, public and government sectors who all are in field of science and education to find new innovations that capable of challenges in scientific research.**

# Prestigious award function of Dr APJ Abdul Kalam Lifetime Achievement National Award for Teacher Research & Social Innovations 2022 by International Institute for Social and Economic Reforms, Bangaluru

## INTERNSHIPS, ACADEMIC PROJECTS & HANDS ON TRAININGS

### ELIGIBILITY:

BSc/MSc/ B.Tech/MTech  
Microbiology/Biotechnology/  
Food Science/Biochemistry/  
Forensic Science

### DURATION :

2 weeks/ 3 months /6 Months

Early Detection  
 Personalized Treatment

Solution – Redify Global™

### Current Infrastructure and Research Facilities

Lab Facility

Lab facility-Wash & Sterilization area
